Mickey:

I have touched base with Greg. The berm remains on the main gate. The Wayland gate is open and will be until action out here are complete.

Gary,
Has the earthen berm been removed from the Wayland entrance, or is it just accessible to walk through traffic? See T. Andrew's comment below.

Mickey,

Gary Moore with the EPA told me that the entrance to the site at the end of Wayland Street is open.

Thanks for your help on Saturday,

Terry

I talked to Greg (IKON) this morning to update him on site status and informed him that he should inspect the site prior to mobilizing his equipment since both entrances (Wayland & Griggs) have now been blocked with earthen berms. He is expecting to receive the disposal approval from Clean Harbors today and will notify you prior to mobilization.
